

BKW

TECHNOLOGIES INC

HIGH QUALITY MACHINING

In today's competitive environment every business owner is looking for an advantage, be it: Quality, Price, Responsiveness, or Service.

At BKW, we deliver on all four. With 30 years of experience, combined with engineering degrees and tool and die making certification, our team is equipped for the challenge. When we work with our customers, we consider ourselves a strategic partner in their businesses.

We offer such services as:

- onsite machinery retrofitting and maintenance
- new machinery design
- manufacture consultation services

Other services available include:

- manufacturing of tube and wire benders
- end-form presses and tooling
- leak testers
- weld and assembly fixtures
- general and precision machining and welding/fabricating
